

## Supplementary Material

**Table 1. Composition of single primary skin lesions.**

Skin lesion	Ecoflex™	Colour
Patch	Ecoflex 0030	Silc-Pig red
Plaque	Ecoflex 0050	Silc-Pig blood
Wheal	Ecoflex 0030	Uncolored
Papule	Ecoflex 0030	Silc-Pig light flesh
Nodulus	Ecoflex 0030	Silc-Pig light flesh
Nodule	Ecoflex 0030	Silc-Pig light flesh
Pustule	Ecoflex 0010	Silc-Pig white
Vesicle	Ecoflex 0010	Uncolored

Welcome to the questionnaire for the assessment of moulages in dermatological teaching

1.1 Please enter your age:

1.2 Please enter your sex:  
 female  male  diverse

1.3 For how long have you been working as a dermatologist?  
 < 5 years  5 - 10 years  > 10 years

1.4 Have you already worked with moulages?  
 Yes, I did.  No, I didn't.

1.5 The primary skin lesions are faithfully represented in terms of feel/haptic.  
strongly agree      strongly disagree

1.6 The feel is in accordance to the clinical presentation.  
strongly agree      strongly disagree

1.7 The models are in good quality in terms of elaboration.  
strongly agree      strongly disagree

1.8 The size of the model is sufficient.  
strongly agree      strongly disagree

1.9 The size of the model is handy.  
strongly agree      strongly disagree

2.0 If you disagree, please state possible improvements:

2.1 Considering the current situation, I do think silicone models are innovative in dermatological teaching.  
strongly agree      strongly disagree

2.2 I do believe that silicone models facilitate studying primary skin lesion for medical students.  
strongly agree      strongly disagree

2.3 I consider teaching using silicone models for a good add-on even after the pandemic.  
strongly agree      strongly disagree

2.4 I consider further silicone models (e.g. representing secondary skin lesions) helpful for students.  
strongly agree      strongly disagree

2.5 The main benefit of using silicone models in contrast to wax models lies in the haptic/feel.  
strongly agree      strongly disagree

2.6 I evaluate the idea of using silicone models in dermatological teaching with:  
very good      imperfect

2.7 Further comments/feedback/criticism:

**Thank you for your participation !**
